

François Raminosona

Software Architect | .NET / Mobile Senior Developer

📞 (+33)6.72.64.49.00 📧 francois.raminosona@gmail.com

📍 Stavanger, Norway (Open to relocation or Remote work)

Passionate, dedicated and innovative Software Architect with over 10 years' experience in .NET and mobile development, leading teams, architecting reusable components, and delivering scalable systems under tight deadlines. I am driven by the desire to create innovative technical solutions that address real-world challenges. I am particularly motivated to work for ethical companies, to contribute to meaningful projects that improve people's lives and help build a better future for everyone.

Professional experience

Software architect @ Laerdal Medical

"Helping Save Lives" & "Empower Everyday Heroes" – Medical Equipment Manufacturing

from 4/2019
to today

- Architected, developed and maintained **18 reusable code libraries** (Bluetooth Low Energy, USB, Charts, EventHub, FFmpeg, Over-The-Air Firmware update...), reducing app delivery time by 84%.
- Created, assembled and led a **team of 4**, dedicated to the development of reusable code.
- Designed and automated **reusable DevOps pipelines** to optimize deployment (version calculation, packaging, deployment, logging, documentation generation, signing ...).
- Co-coordinated the company-wide migration of **1.3k repositories from Bitbucket to Github**.
- Led the migration from Azure DevOps to **Github Actions**, writing standardized YML build scripts.
- Organized bi-weekly tech-support meetings helping developers use components.
- Researched and developed advanced technical solutions to the problems frequently faced by development teams: memory-leaks, UI glitches, crashes ...
- Developed and maintained demo projects, used as documentation and sandboxes by developers.
- Led and encouraged **open-source initiatives**.

C#, .NET, Mobile, Cross platform, MAUI, Xamarin, Android, iOS, Windows, Bluetooth, BLE, USB, Nuget, Git, Github Actions, Bitbucket, Jira, Rider, Over-The-Air Firmware Update, Nordic Semiconductor, Azure DevOps

Chief Technology Officer (CTO) @ Eyes app

"All your social-media content in 1 app" – Multi social-media platform

from 1/2017
to 6/2018

- Spearheaded the development of a multi-social-media platform, consolidating all social-media content into a single Xamarin app, deployed over Google Play Store & Apple App Store.
- Recruited, mentored, and led a high-performing **team of 5 developers**.
- Architected and implemented secure and scalable IT infrastructure, including landing websites, domain names, email, and O365.
- Ensured **compliance with CNIL and GDPR regulations** by registering data storage and processes.
- Secured **funding and investments** (1.6M) from private investors, banks, and innovation grants.
- Provided technical leadership and support, guiding design and interaction choices.

C#, .NET, Mobile, Azure Server, Azure API .NET Backend, Azure Notification Hub, Cross platform, Xamarin.Forms, Android, iOS, JetBrains Rider, Visual Studio, Azure DevOps, Azure Mobile Center, Facebook API, Twitter API, LinkedIn API, Snapchat API, Instagram API ...

François Raminosona

Software Architect | .NET / Mobile Senior Developer

Mobile developer / Xamarin consultant @ Cellenza

"Microsoft cloud experts" – IT Services & IT Consulting

from 6/2016
to 1/2017

- Designed and delivered the Scribzee app for Oxford, integrating advanced camera and image processing capabilities to scan and OCR documents.
- Participated in daily Scrum meetings in the team of three developers.
- Collaborated with clients to refine design and UX strategies, aligning development efforts with business objectives.
- Provided support for the development of a banking app for Rothschild bank.

C#, .NET, Mobile, Cross platform, Xamarin.iOS, Xamarin.Android, Camera, Image processing, Cloud storage, UI, UX

Xamarin.iOS developer @ Shapr

"Match with other professionals" – Social platform & matching app

from 1/2016
to 6/2016

- Redeveloped the iOS front page to enhance user experience.
- Developed the swipe right-left UI feature, improving app navigation.
- Introduced new Xamarin "alpha" features to improve the app stability.

C#, .NET, Mobile, Cross platform, Xamarin.iOS, UI, UX

I also had 6 student & part-time jobs, 2 internships & 1 short term job
